

# Homeopathy Research Institute

Promoting, conducting & disseminating high quality research into homeopathy

Interested in **research** into homeopathy?

Do you want to **understand** what research has been done?

Do you want to be able to **explain** research to your patients?

Do you want to **participate** in building the research evidence base for your profession?

Then **we invite you** to join the Homeopathy Research Institute

**Participate in the HRI online forum/ discussion board** – talk to people interested in homeopathy research and people conducting homeopathy research, find out what is going on and join in.

**Receive our quarterly electronic newsletter** – this newsletter will provide you with a round up of the latest research in homeopathy – trials, observational studies, qualitative research, theoretical research, laboratory research

**Receive news alerts** – find out when homeopathy is going to be in the media – newspaper articles, articles in the scientific or medical press, TV programmes – so you can be prepared

For more details please go to our website:
